Commercial Utility	MAEKO Food Waste Composting Machine
Model No	MW30
Feature	Fully Automated Food Waste Composting Machine with Intelligent Sensors and Safety Sensors
Dimension (L x W x H mm)	900 X 680 X 1300 (composter size) 1050 X 830 X 1450 (crate size) / 1.05cbm
Capacity (Volume)	30L per time per day
Type of Food Waste	Able to compost all type and sizes of food waste (eg. all types of fresh and cook food waste)
Product Weight	260KG
Advantageous Characteristic	- Stand-Alone Unit - Friendly Control Panel - Composting Medium: Microbes (Aerobic) - Process Time 24 hours - Converts 100% of Food Waste - Temperature: 40C – 60C - Safety Interlock
Process flow	Insert / Agitate / Compost
Filtration System	Pro-active liquid filtration system to eliminate foul odor and Enzyme purification system
Power	1.6kW / 220VAC / 50Hz / 7.3A
Noise Level	45 ~ 55 dB
Composting Technology	Microbial Aerobic Compression Composting Technology with Agitator System
Warranty Period	1 Year
Machine Material	Stainless Steel with ZENUST® Protection
Booklet	Product Manual
• The specification of each model can be changed according to upgrade program by MAEKO. • Please consult and confirm with manufacturer before ordering. • The colors and external chassis of actual products may look different from in this catalog.
